Independent Auditor's Report

Board of Directors  
A.G.B.U. Alex and Marie Manoogian School  
Southfield, MI 48075

REPORT ON THE FINANCIAL STATEMENTS

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the A.G.B.U. Alex and Marie Manoogian School as of and for the year ended June 30, 2021, which collectively comprise the School's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

OPINION

In my opinion, the financial statements referred to above present fairly, in all material respects, the

respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the A.G.B.U. Alex and Marie Manoogian School as of June 30, 2021, and the respective changes in the financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### OTHER MATTERS

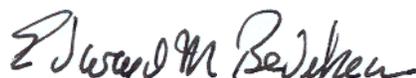

The management's discussion and analysis on pages 3 through 6 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering A.G.B.U. Alex and Marie Manoogian School's internal control over financial reporting and compliance.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the A.G.B.U. Alex and Marie Manoogian School's basic financial statements. The accompanying required supplementary information and other supplemental information as identified in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The required supplemental information and other supplemental information have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with Government Auditing Standards, I have also issued a report dated September 21, 2020 on my consideration of A.G.B.U. Alex and Marie Manoogian Schools' compliance with Laws, Regulations, Contracts and Grants, Agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal controls over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering A.G.B.U. Alex and Marie Manoogian School's internal control over financial reporting and compliance.

My audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The net pension liability and GASB 68 and 75 notes are presented for purposes of additional analysis. Such information has been subjected to auditor's procedures applied by Michigan Office of the Auditor General and are included in the basic financial statements, and accordingly I do not express an opinion on the net pension liability and net postemployment benefits liability as reported in notes 9 and 10.

**Management's Discussion And Analysis  
For Fiscal Year Ended June 30, 2021**

This section of the A.G.B.U. Alex & Marie Manoogian School's Annual Financial Report presents our discussion and analysis of the school's financial performance during the fiscal year that ended on June 30, 2021. Please read it in conjunction with the transmittal letter at the front of this report and the school's financial statements, which immediately follow this section.

**School-Wide Statements**

The school-wide statements report information about the school as a whole using accounting methods similar to those used by private-sector companies. The statements of net assets include *all* of the school's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two school-wide statements report the school's *net assets* and how they have changed. Net assets - the difference between the school's assets and liabilities - are one way to measure the school's financial health or *position*.

- Over time, increases or decreases in the school's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the school, you need to consider additional non-financial factors such as changes in the school's enrollment and the condition of school buildings and other facilities.

**Fund Financial Statements**

The school has two kinds of funds:

- *Governmental funds* - Most of the school's basic services are included in governmental funds, which generally focus on (1) how cash *and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps you to determine whether there are more or fewer financial resources that can be spent in the near future to finance the school's programs. Because this information does not encompass the additional long-term focus of the school-wide statements, we provide additional information with the governmental funds statements that explains the relationship (or differences) between them.
- *Fiduciary funds* - the school is the fiduciary for assets that belong to others, such as the student activities fund. The school is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. We exclude these activities from the school-wide financial statements because the school cannot use these assets to finance its operations.

**Note 1 - Summary of Significant Accounting Policies**

**Reporting Entity**

A.G.B.U. Alex and Marie Manoogian School located in Southfield, Michigan was incorporated as a Nonprofit Corporation August 18, 1995, by the Michigan Department of Commerce. With Central Michigan University as the authorizing body under a renewal oversight agreement dated July 1, 2017, the School operates as a public school academy for the purpose of improving pupil educational achievement by improving the learning environment. The school enrollment for the year averaged 389 students covering grades K1 to grade 12.

**Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the School. For the most part, the effect of interfund activity has been removed from these statements. All of the School's activities are classified as governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers who purchase, use or directly benefit from goods or services by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. State Foundation Aid and other unrestricted items are not included as program revenues but instead as *general revenues*.

**Measurement focus, basis of accounting, and financial statement presentation**

The School-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

**A.G.B.U. Alex and Marie Manoogian School  
a Michigan Public School Academy**

**Notes to Financial Statements  
June 30, 2021**

**Note 1 - Continued**

State and federal aid and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the School.

The School reports the following major governmental funds:

The *general fund* is the School's primary operating fund. It accounts for all financial resources of the School, except those required to be accounted for in another fund.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash & Cash Equivalents

Cash and cash equivalents consist of cash held in checking accounts. At year-end and throughout the year, the school's cash balances were deposited with one financial institution. Management believes the school is not exposed to any significant credit risk on cash and cash equivalents.

Capital Assets

Capital assets purchased or acquired are capitalized at historical cost or estimated historical cost. Donated fixed assets are stated at their estimated fair market value on the date received. Depreciation on all assets is provided using the straight line basis over the estimated useful lives which range from seven to ten years. The school's capitalization policy is equipment purchases that exceed \$5,000.

Grant Revenue

Grant revenue is recognized when the qualifying costs are incurred for cost-reimbursement grants or contracts, or when a unit of service is provided for performance grants. Grant revenue from federal agencies is subject to independent audit under the Office of Management and Budget Article A-133 and reviewed by grantor services. The review could result in the disallowance of expenditures under the terms of the grant or reductions of future grant funds.

Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees Retirement System (MPERS) and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. For this purpose, benefit payments (including refund of employee contributions) are recognized when due and payable in accordance with the benefits terms. Investments are reported at fair value.

**Notes to Financial Statements

**Postemployment Benefits Other Than Pensions**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about fiduciary net position of the Michigan Public School Employees Retirement System (MPSERS) and additions to/deductions from MPSERS fiduciary net position have been determined on the same basis as they are reported by MPSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Note 5 - Pension and Other Benefit Plans**

The school retirement plan for substantially all of its employees is administered by the Michigan Public School Employees Retirement System. The system is a trust fund, qualified under Section 401(a) of the Internal Revenue Code, created and governed by the State of Michigan under the provisions of Public Act 300 of 1980, as amended. The benefit rate is established by the trustees, for each benefit year starting October 1 and ending September 30. Copies of the trustees annual report can be obtained from the office of Retirement Services, P.O. Box 30171, Lansing, MI 48909 or by phone 517-322-5103. The school also provides health, dental and life insurance coverage for all employees. Annual cost for the above are as follows:

Retirement and health benefits	\$ 718,210
Health, life insurance and dental	<u>266,997</u>
Total	<u>\$ 985,207</u>

**Note 6 - Commitments**

The School signed a new three year lease dated 8-1-2020 with an option to renew for an additional three years. Terms for additional three years are to be negotiated within 60 days of intent to extend the term.

Future Rents Due are as Follows:

6-30-22	\$ 96,000
6-30-23	96,000
8-31-23	<u>16,000</u>
	<u>\$ 208,000</u>

**Note 7 – Tax Status**

The School is a tax-exempt organization under Internal Revenue Code Section 501 (c)(3) and similar provisions of the State Code. Therefore, no provisions for income taxes have been made.

**Note 8 – Subsequent Events**

Subsequent events have been evaluated through September 21, 2021 which is the same date of the financial statements. Events occurring after that date have not been evaluated to determine whether a change in the financial statements would be required.

**Note 9 –General Information About the Michigan Public School Employees' Retirement System (MPERS) Pension Plan**

**Plan Description**

The Michigan Public School Employees' Retirement System (System or MPERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. Section 25 of this act establishes the board's authority to promulgate or amend the provisions of the System. The board consists of twelve members - eleven appointed by the Governor and the State Superintendent of Instruction, who serves as an ex-officio member.

The System's pension plan was established by the State to provide retirement, survivor and disability benefits to public school employees. In addition, the System's health plan provides all retirees with the option of receiving health, prescription drug, dental and vision coverage under the Michigan Public School Employees' Retirement Act (1980 PA 300 as amended).

The system is administered by the Office of Retirement Services (ORS) within the Michigan Department of Technology, Management and Budget. The department appoints the Office Director, with whom the general oversight of the system resides. The State Treasurer serves as the investment officer and custodian for the system.

The system's financial statements are available at [www.michigan.gov/orsschools](http://www.michigan.gov/orsschools).

**Benefits Provided**

Benefit provisions of the defined benefit pension plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan. Depending on the plan option selected, member retirement benefits for are determined by final average compensation, years of service, and a pension factor ranging from 1.25 percent to 1.50 percent. DB members are eligible to receive a monthly benefit when they meet certain age and service requirements. The System also provides disability and survivor benefits to DB plan members.

A DB member plan member who leaves Michigan public school employment may request a refund of his or her member contributions to the retirement system account if applicable. A refund cancels a former member's rights to future benefits. However, returning members who previously received a refund of their contributions may reinstate their service through repayment of the refund upon satisfaction of certain requirements.

**Notes to Financial Statements

**Contributions**

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature.

Employer contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. The unfunded (overfunded) actuarial accrued liability as of the September 30, 2019 valuation will be amortized over a 19 year period beginning October 1, 2019 and ending September 30, 2038.

The schedule below summarizes pension contribution rates ended September 30, 2018.

**Pension Contribution Rates**

<b>Benefit Structure</b>	<b>Member</b>	<b>Employer</b>

Pension Plus 2	6.2%	19.59%

Required contributions to the pension plan from A.G.B.U were \$537,241 for the year ended September 30, 2020.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2020, A.G.B.U. reported a liability of \$6,715,404 for its proportionate share of the MPERS net pension liability. The net pension liability was measured as of September 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation rolled forward from September 2019. A.G.B.U.'s proportion of the net pension liability was determined by dividing each employer's statutorily required pension contributions to the system during the measurement period by the percent of pension contributions required from all applicable employers during the measurement period. At September 30, 2020, A.G.B.U.'s proportion was 0.000195 percent, which was an increase of 0.0001 percent from its proportion measured as of September 30, 2019.

For the year ended June 30, 2021, A.G.B.U. recognized pension expense of \$1,037,953. At June 30, 2021, A.G.B.U. reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**Long-Term Expected Return on Plan Assets**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each

major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2020, are summarized in the following table:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long Term Expected Real Rate of Return*</b>
Domestic Equity Pools	25.0%	5.6%
Private Equity Pools	16.0	9.3
International Equity	15.0	7.4
Fixed Income Pools	10.5	0.5
Real Estate and Infrastructure Pools	10.0	4.9
Absolute Return Pools	9.0	3.2
Real Return/Opportunistic Pools	12.5	6.6
Short Term Investment Pools	2.0	0.1
<b>TOTAL</b>	<b>100.0%</b>	
<i>*Long term rate of return does not include 2.3% inflation</i>		

**Rate of Return**

For the fiscal year ended September 30, 2020, the annual money-weighted rate of return on pension plan investment, net of pension plan investment expense, was 5.37%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**Discount Rate**

A discount rate of 6.80% was used to measure the total pension liability (6.80% for the Pension Plus plan, 6.0% for the Pension Plus 2 Plan provided through non-university employers only). This discount rate was based on the long term expected rate of return on pension plan investments of 6.80% (6.80% for the Pension Plus plan, 6.0% for the Pension Plus 2 Plan). The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Plan Description**

The Michigan Public School Employees' Retirement System (System or MPSERS) is a cost-sharing, multiple employer, state-wide, defined benefit public employee retirement plan governed by the State of Michigan (State) originally created under Public Act 136 of 1945, recodified and currently operating under the provisions of Public Act 300 of 1980, as amended. The System is administered by the Office of Retirement Services (ORS) within the Michigan

Department of Technology, Management & Budget. The Department Director appoints the Office Director, with whom the general oversight of the System resides. The State Treasurer serves as the investment officer and custodian for the System.

The System's financial statements are available on the ORS website at [www.michigan.gov/orsschools](http://www.michigan.gov/orsschools).

**Benefits Provided**

Benefit provisions of the postemployment healthcare plan are established by State statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions. Retirees have the option of health coverage, which, through 2012, was funded on a cash disbursement basis. Beginning fiscal year 2013, it is funded on a prefunded basis. The System has contracted to provide the comprehensive group medical, prescription drug, dental and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by the System with the balance deducted from the monthly pension of each retiree healthcare recipient. For members who first worked before July 1, 2008, (Basic, MIP-Fixed, and MIP Graded plan members) the subsidy is the maximum allowed by statute. To limit future liabilities of Other Postemployment Benefits, members who first worked on or after July 1, 2008 (MIP-Plus plan members) have a graded premium subsidy based on career length where they accrue credit towards their insurance premiums in retirement, not to exceed the maximum allowable by statute. Public Act 300 of 2012 sets the maximum subsidy at 80% beginning January 1, 2013; 90% for those Medicare eligible and enrolled in the insurances as of that date. Dependents are eligible for healthcare coverage if they meet the dependency requirements set forth in Public Act 300 of 1980, as amended.

Public Act 300 of 2012 granted all active members of the Michigan Public School Employees Retirement System, who earned service credit in the 12 months ending September 3, 2012 or were on an approved professional services or military leave of absence on September 3, 2012, a voluntary election regarding their retirement healthcare. Any changes to a member's healthcare benefit are effective as of the member's transition date, which is defined as the first day of the pay period that begins on or after February 1, 2013.

Under Public Act 300 of 2012, members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the subsidy benefit and becoming a participant in the Personal Healthcare Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 401(k) account. Members who selected this option stop paying the 3% contribution to retiree healthcare as of the day before their transition date, and their prior contributions were deposited into their 401(k) account.

**Contributions**

Employers are required by Public Act 300 of 1980, as amended, to contribute amounts necessary to finance the coverage of active and retired members. Contribution provisions are specified by State

statute and may be amended only by action of the State Legislature.

Employer OPEB contributions to the System are determined on an actuarial basis using the entry age normal actuarial cost method. Under this method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated on a level basis over the service of the individual between entry age and assumed exit age. The portion of this cost allocated to the current valuation year is called the normal cost. The remainder is called the actuarial accrued liability. Normal cost is funded on a current basis. **OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2021, A.G.B.U. Alex and Marie Manoogian School's reported a liability of \$1,033,038 for its proportionate share of the MPSERS net OPEB liability. The net OPEB liability was measured as of September 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation rolled forward from September 2019. A.G.B.U. Alex and Marie Manoogian School's proportion of the net OPEB liability was determined by dividing each employer's statutorily required OPEB contributions to the system during the measurement period by the percent of OPEB contributions required from all applicable employers during the measurement period. At September 30, 2020, A.G.B.U. Alex and Marie Manoogian School's proportion was 0.0001928 percent, which was an decrease of 0.0000018 percent from its proportion measured as of October 1, 2019.

<i>*Long-term rates of return are net of administrative expenses and 2.1% inflation.</i>		

**Rate of Return**

For the fiscal year ended September 30, 2020, the annual money-weighted rate of return on OPEB plan investment, net of OPEB plan investment expense, was 5.24%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**Discount Rate**

A discount rate of 6.95% was used to measure the total OPEB liability. This discount rate was based on the long-term expected rate of return on OPEB plan investments of 6.95%. The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Board of Directors  
A.G.B.U. Alex and Marie Manoogian School  
22001 Northwestern Highway  
Southfield, MI 48075

I have audited the financial statements of A.G.B.U. Alex and Marie Manoogian School, as of and for the year ended June 30, 2021, and have issued my report thereon dated September 21, 2021. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

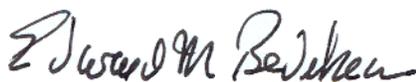

#### Compliance

As part of obtaining reasonable assurance about whether A.G.B.U. Alex and Marie Manoogian School's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

#### Internal Control Over Financial Reporting

In planning and performing my audit, I considered A.G.B.U. Alex and Marie Manoogian School's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Directors, Management, Michigan State Board of Education, and Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
